*Shelter Euthanasia - When an animal is gravely ill or injured, our staff takes the animal to a veterinary clinic for evaluation. If the veterinarian deems it necessary to euthanize an animal, the procedure is performed by the veterinarian. MEHS does not perform euthanasia on site. MEHS is a "no-kill" shelter so animals stay in our facility until they find permanent homes. Animals are never euthanized based on shelter space needs or the animal's length of stay.

**Live Release Rate - as dictated by the Asilomar Accords, is calculated by dividing the Total Live Outcomes by the total of All Outcomes.
